

SE Sports Fixture Manager — User Guide

1. Overview

SE Sports Fixture Manager is a Joomla extension that allows sports clubs and organizations to manage teams, competitions, seasons, and fixtures from the administrator panel and display them on the website frontend.

- 1 Component (Admin + Frontend)
- 2 Frontend Display Module

2. System Requirements

- 1 Joomla 4.x or 5.x
- 2 PHP 8.0+
- 3 MySQL 5.7+ or MariaDB 10.2+

3. Installation

- 1 Login to Joomla Administrator
- 2 Go to System → Install → Extensions
- 3 Upload package ZIP file
- 4 Click Upload & Install
- 5 Open Components → SE Sports Fixture Manager

4. First-Time Setup Order

Create data in this order:

- 1 Teams
- 2 Seasons
- 3 Competitions
- 4 Fixtures

5. Dashboard Overview

The dashboard provides quick access to:

- 1 Fixtures
- 2 Teams
- 3 Seasons

- 4 Competitions
- 5 Import/Export
- 6 Statistics
- 7 Settings

6. Managing Teams

Add a Team:

- 1 Open Teams
- 2 Click New
- 3 Enter title, alias, description, status
- 4 Save

7. Managing Seasons

Seasons group fixtures by year.

- 1 Open Seasons
- 2 Click New
- 3 Enter title (example: 2025/26)
- 4 Save

8. Managing Competitions

- 1 Open Competitions
- 2 Click New
- 3 Enter title and status
- 4 Save

9. Managing Fixtures

Create Fixture:

- 1 Open Fixtures
- 2 Click New
- 3 Fill in match details
- 4 Save

10. Import & Export

Export: Exports fixtures as CSV for backup or editing.

Import Requirements:

- 1 First row must be headers
- 2 Date format: YYYY-MM-DD
- 3 Existing IDs update records
- 4 No ID creates new record

11. Statistics

Includes overview totals, performance metrics, attendance stats, competition breakdowns, and recent results.

12. Frontend Display

Visitors can view fixtures including competition, opponent, venue, team, date & time, ticket link, and logo. Layout adapts automatically for desktop, tablet, and mobile.

13. Styling Settings

Customize desktop, tablet, and mobile display styles including font size, weight, and colors for text elements and buttons.

14. Menu Setup

- 1 Go to Menus → Add New Item
- 2 Select type: SE Sports Fixture Manager → Fixtures
- 3 Enter title
- 4 Configure filters
- 5 Save

15. Best Practices

- 1 Use consistent naming
- 2 Create seasons early
- 3 Update results quickly
- 4 Unpublish old data
- 5 Export backups regularly
- 6 Optimize logo images

16. Troubleshooting

Fixtures Not Showing: Check published status, menu filters, and related items.

Import Fails: Check CSV formatting, matching names, and UTF-8 encoding.

Statistics Incorrect: Verify score format, home/away setting, and played status.

Drag Ordering Missing: Click the Ordering column first.

17. Version

Current Version: 1.0.0
